

Dear JCRA

May I please offer my support to the liberalisation of the postal service in Jersey

We, as a group, are high users of the various, postal and courier services in the Island
I am particularly supportive of Hub Europe's bid, as they are an established Jersey company.

We have seen a lot of good things come from the opening up of the Telecoms industry, and now I
look forward to the same thing
happening to the Post office.

My only worry is that it doesn't go far enough.

Regards

John Dingle
