

26 May 2010 –Broadband Promotion

Between 16th June and 15th September 2010, inclusive, Jersey Telecom will offer any existing JT retail residential broadband customer who has their broadband service provided on the NGN, an opportunity of upgrading their Broadband Service to 4 Meg or 8 Meg (depending on line capability) without any additional charges for one month. This 'try before you buy' offer will allow customers to experience a faster speed and decide at the end of the month period if they would like to upgrade their Broadband Service to a higher speed
