- 18.10 The JCRA may consult publicly on the statement provided in accordance with Condition 17.9 and issue directions to the Licensee specifying any modifications or additions that it considers should be made to the statement. The Licensee shall then re-publish the statement in the agreed form, in accordance with any directions as to publication made by the JCRA, and shall forthwith implement the same. The JCRA may from time to time issue further directions requiring modifications or additions to the statement and as to its re-publication and implementation.
- 18.11 The Licensee shall submit at the end of every six month period or at such intervals as the JCRA directs, a written report to the JCRA setting out:
- (a) the extent to which the Licensee has succeeded in meeting the targets described in Condition 17.9;
 - (b) the compensation that has been paid in relation to complaints or disagreements where the Subscribers complaints were upheld and why complaints were dismissed; and
 - (c) such other matters that the JCRA directs should be included in the report.
- 18.12 The Licensee shall ensure the accuracy and reliability of any systems, equipment, data or procedures which the Licensee uses to measure or to track the provision of Licensed Telecommunication Services or for the calculation of related charges.
- 18.13 The JCRA may require the Licensee to set up, at its expense, a User Council or Councils for the specific purpose of obtaining and representing the views of customers.
- 18.14
- a) The Licensee shall give a Relevant Subscriber not less than two calendar months' notice in writing of any increase to the unit price of a telecommunication service supplied under a Fixed-Term Contract.
 - b) If the Licensee wishes to increase the unit price of a telecommunication service supplied under a Fixed-Term Contract, it shall allow a Relevant Subscriber to terminate its contract for that telecommunication service without penalty, provided that: (i) notice is given in writing by the Relevant Subscriber to the Licensee at any time during the notice period referred to in sub-condition a); and (ii) the Relevant Subscriber pays to the Licensee any outstanding subsidy in respect of telecommunications equipment supplied at no charge or at a discount by the Licensee under the contract.
 - c) As part of any notice referred to in sub-condition a), the Licensee shall inform the Relevant Subscriber of (i) its ability to terminate its contract for that telecommunication service without penalty; and (ii) the amount of the outstanding telecommunications equipment subsidy referred to in sub-condition b).
 - d) This condition shall not apply to an increase in the unit price of a telecommunication service supplied under a Fixed-Term Contract, provided that:

- a. the increase is directly referable to the introduction of, or increase in, direct taxes or other government duties or levies, and the relevant contract clearly permits the Licensee to make that increase; or
- b. the quantum of the increase in unit price and the timing of the increase are set out clearly in the relevant contract (whether as an actual amount, or by reference to a price index),

and, in each case, the provision allowing the operator to make the increase is prominently displayed in the contract.

- e) For the purposes of this Condition, a “Relevant Subscriber” shall be a residential or domestic subscriber, or a business with fewer than 10 employees located in the Channel Islands.
- f) For the purposes of this Condition, a “Fixed-Term Contract” shall be defined as a contract involving the supply of telecommunication services by the Licensee with a term of more than 2 months.
- g) For the avoidance of doubt, any reduction in call and/or text and/or data allowances provided to a Subscriber under a Fixed-Term Contract for a telecommunication service will constitute an increase in the unit price charged to the Subscriber and thus a circumstance to which sub-conditions a), b) and c) would apply. However, for mobile telephone contracts only, increases in charges for calls, texts and data not provided within an inclusive bundle shall be deemed not to be an increase in the unit price.
- h) Where costs incurred by the Licensee in the provision of a telecommunication service increase significantly, and such increase was not reasonably foreseeable, then the Licensee may apply to the GCRA for, and the GCRA may grant, a waiver of the requirements of this Condition in respect of Fixed-Term Contracts for that telecommunication service.

18A MINIMUM REQUIREMENTS FOR 4G SERVICES

**PART III: GENERAL CONDITIONS RELATING TO THE PROVISION OF
TELECOMMUNICATIONS**

- 19.1 The Licensee shall use only those Numbers that are allocated to it for the purpose of terminating messages on the Licensed Telecommunications System and shall comply with any directions concerning use and allocation which are issued by the JCRA from time to time.
- 19.2 The Licensee shall manage any Numbers allocated to it with a view to conserving Numbers as a public resource and shall maintain a record of the status of all Numbers allocated to it and on request, shall provide that information to the JCRA in the form directed by the JCRA.
- 19.3 The Licensee shall not charge its customers for allocations of Numbers except where authorised and in accordance with any direction from the JCRA.
- 19.4 The Licensee shall comply with any directions issued by the JCRA in respect of Number Portability, Number Translation, Number Hosting and compliance with the Numbering Conventions.

- 19.6 MNP shall be provided using a centralized database system (the 'MNP System') in accordance with the requirements specified in Schedule A.
- 19.7 The Licensee shall be entitled to share the costs of acquiring and maintaining the MNP System equally with each of the Other Licensed Operators that provide Mobile Telecommunication Services. Where network investment is required for the Licensee to interface with the MNP System, the Licensee shall fund itself the necessary investment.
- 19.8 The Licensee will ensure that it makes representatives available to attend meetings, upon reasonable notice, with the JCRA and/or its representative to discuss the implementation or operation of MNP.
- 19.9 The JCRA may require information from the Licensee concerning the implementation or operation of MNP.

20. RADIO FREQUENCY

- 20.1 The Licensee shall provide the Telecommunications Services in accordance with the requirements of the Wireless Telegraphy Act 1949 (Wireless Telegraphy (Channel Islands) Order 1952) and the Telecommunications (Jersey) Law .

- 20.2 The Licensee shall at all times facilitate the proper management of the radio frequency spectrum and shall ensure that the equipment and systems of the Licensee are adequate to prevent or, if necessary, eliminate interference with other authorised radio systems. Where the JCRA believes that an emergency exists, the Licensee shall, if so directed by the JCRA in writing:
- (a) modify, in such manner as may be specified in the direction, the operating characteristics of any radio transmitting station used for the purposes of the Telecommunication Services; or
 - (b) cease operating any radio channel or radio transmitting station used for the purposes of the Telecommunication Services.
- 20.3 The Licensee shall ensure that non-ionising radiation emissions from its Licensed Telecommunication System are within the limits specified by the guidelines published by the International Commission for Non-Ionising Radiation Protection (ICNIRP) and that it complies with any radiation emission standards adopted and published from time to time by BSI, ETSI, the European Committee for Electrotechnical Standardisation and any other standards specified by the JCRA.
- 20.4 The Licensee shall make efficient use of the radio spectrum. If directed by the JCRA the Licensee shall take steps to re-plan radio spectrum usage in order to make the most efficient use of that spectrum or parts of that spectrum allocated to the Licensee.

21. ACCESS TO LAND

- 21.1 The Licensee shall be entitled to all powers and rights and subject to all such obligations as are set out in Part 6 of the Telecommunications (Jersey) Law. Nothing in this Licence shall absolve the Licensee from any requirement in law to obtain such additional consents, permissions, authorisations or licences as may be necessary for the provision of the Licensed Telecommunication System and for the exercise of its rights or discharge of its obligations under this Licence.

22. ACCESS TO FACILITIES

- 22.1 If the Licensee or the Licensee's Subsidiary or Joint Venture and any Other Licensed Operator fail to reach agreement within sixty days in respect of a request by the Other Licensed Operator for Access, and the JCRA considers that such Access is essential as being the only economically feasible means by which a Telecommunication System can be installed or provided or connected to the premises of a User or Subscriber, over, under, in or across any public right of way or as being the only feasible means of avoiding material damage to the environment, the JCRA may instruct the Licensee to allow, or to procure that the Licensee's Associated Company allows the Other Licensed Operator Access on reasonable terms unless the JCRA determines that it would be unreasonable to require the Licensee or the Licensee's Subsidiary or Joint

Venture concerned, alone or with any other person willing or required to do so, to grant the necessary Access.

- 22.2 In the absence of agreement between the parties, the terms of Access including time limits for completion of any agreement shall be determined by the JCRA.

23. CESSATION OF THE PROVISION OF THE LICENSED TELECOMMUNICATIONS SERVICES

- 23.1 If the Licensee proposes to cease to provide all or a material part of the Licensed Telecommunication System it shall give not less than four months notice in writing to the JCRA of the proposal and its plans in relation to the cessation. Such cessation shall be effected only with the consent of the JCRA and in accordance with any directions given by the JCRA in relation thereto and the Licensee shall comply with any such directions under Condition 22.1.

- 23.2 At any time within four months before the expiry of the Licence or if the JCRA receives a notice under Condition 22.1 or if the JCRA has made a decision pursuant to Article 20 of the Telecommunications (Jersey) Law to suspend or revoke the Licence, the JCRA may, after consultation with the Licensee, direct it in writing to take such steps as are specified in the direction, being steps that the Authority considers necessary or expedient to ensure the safety of the Licensed Telecommunication System or the continuity and continuation of the provision of Telecommunication Services or any constituent parts thereof, and the Licensee shall comply with any such directions.

**PART IV: ADDITIONAL CONDITIONS APPLICABLE TO CLASS III
LICENSEES**

24. APPLICATION OF CONDITIONS

- 24.1 Where the JCRA has decided, that a Licensee possesses Significant Market Power (“SMP”) in a relevant market, it may determine that provisions of this Part IV apply.

25. EQUAL ACCESS

- 25.1 The Licensee shall at the request of an Other Licensed Operator or if directed by the JCRA, make Equal Access available to that Other Licensed Operator. The JCRA may direct the terms upon which such Equal Access shall be provided and the JCRA may make subsequent directions modifying or supplementing the regulation of Equal Access. In this Condition, “Equal Access” means a facility provided whereby a User can access the Telecommunications System or Telecommunications Services offered by an Other Licensed Operator. The User’s choice may be made in either of the following ways, subject to the requirements of the direction:

- (a) by pre-selection, that is to say the User registers with the Licensee the name of the Other Licensed Operator which will convey all his calls (but the Licensee may offer a facility to overwrite the preference in the case of any particular call); or
- (b) on a call-by-call basis using any Numbers or codes allocated for this purpose by the appropriate licensing authority.

- 25.2 The Licensee may not charge any fee or require the Subscriber to acquire any special equipment as a pre-requisite to obtaining Equal Access or changing its designation of preferred Operator.

26 REFERENCE INTERCONNECT OFFER

- 26.1 The Licensee shall, within ninety (90) days of the commencement of this licence make publicly available a template Reference Interconnect Offer (“RIO”) which shall contain the terms, schedules of Interconnection and pricing of Interconnection between the Licensees network and any Other Licensed Operator whose Licence terms enables them to Interconnect with another Licensed System.

- 26.2 The Licensee shall provide details of the template RIO to the JCRA who may, from time to time, direct changes to be made to the terms and/or schedules.

27. INTERCONNECTION

- 27.1 The Licensee shall:

- (a) have the right to Interconnect the Licensed Telecommunication System with the Telecommunication Network or Mobile Telecommunication Network of any Other Licensed Operator, provided the technical standards and specifications for interconnection have been complied with; and
 - (b) on request, Interconnect the Licensed Telecommunications System with the Telecommunications Network or the Mobile Telecommunications Network of any Other Licensed Operator whose licence authorises such interconnection, at any technically feasible point.
- 27.2 The Licensee shall make available to interested parties such Technical Standards and Specifications as may be required to enable connection to the Licensed Telecommunications System. Technical standards shall be those recognized universally for the specified interface. The JCRA may issue a direction as to the information that must be provided.
- 27.3 The Licensee shall not be required to enter into an Interconnection agreement or provide interconnection services if that agreement or the provision of those services would:
- (a) be technically infeasible or if it could reasonably be expected materially to impair the quality of any Telecommunications Service; or
 - (b) threaten the integrity, security, or interoperability of the Licensed Telecommunication System in a material way, provided that the Licensee informs the Other Licensed Operator, in writing, with a copy to the JCRA forthwith justifying its decision to refuse Interconnection or its intention to terminate interconnection services under an interconnection agreement. The JCRA may determine whether the action by the Licensee is reasonable and issue directions accordingly.
- 27.4 The Licensee shall provide copies of any interconnection agreements to the JCRA and such agreements shall be made available to interested parties upon a request being made in writing to the JCRA. The JCRA may determine, following consultation with the Licensee, those aspects which deal with the commercial strategy of the parties and those aspects shall not be made available.
- 27.5 The JCRA may direct that changes be made to any interconnection agreement to ensure that it is in compliance with the Telecommunications (Jersey) Law.

28. LEASED CIRCUITS

- 28.1 The Licensee shall offer to lease out circuits or partial circuits for any lawful purpose:

- (a) on publicly advertised conditions and on non-discriminatory terms. This is without prejudice to discounts that are in accordance with Condition 32;
 - (b) within a reasonable time from any written request and, in any event, within thirty (30) days;
 - (c) so as to meet the quality standards required under the Conditions; and
 - (d) at prices that do not exceed levels determined from time to time by the JCRA.
- 28.2 The Licensee shall offer to lease out circuits to Other Licensed Operators on terms that are no less favourable than those on which the Licensee makes equivalent leased circuits available to its Associated Companies, Subsidiaries or Joint Venture Companies or its own business divisions.
- 28.3 The Licensee shall not be obliged to provide, and may cease to provide, leased circuits to Users in cases in which:
- (a) use of the leased circuits in the manner proposed would harm the integrity, security or interoperability of the Licensed Telecommunication System in a material way; or
 - (b) the leased circuits will be connected to Customer Premises Equipment that is not approved for connection to the Licensed Telecommunication System.
- 28.4 If the Licensee refuses to provide leased circuits or intends to terminate the provision of a leased circuit service on grounds that the User of the leased circuits is acting in a manner set out in Condition 26.3, the Licensee shall immediately give its reasons in writing to the User, and submit a copy to the JCRA. The JCRA may consider whether the reasons given for the refusal or the intention to terminate the leased circuit are justified and issue directions accordingly.
- 28.5 The Licensee may include in its agreements with Users of leased circuits, reasonable restrictions consistent with Condition 26.3.

29. SEPARATION OF ACCOUNTS

- 29.1 Within six (6) months of the Licence Commencement Date, the Licensee shall confirm to the JCRA that it maintains accounting records in a form that enables the activities specified in any direction given by the JCRA to be separately identifiable, and which the JCRA considers to be sufficient to show and explain the transactions of each of those activities.

29.2 The JCRA may require reports on the accounting records and/or activities from time to time. The JCRA may direct the Licensee as to the basis and timing of such reports as the JCRA may require

30. CROSS SUBSIDISATION

30.1 The Licensee shall not unfairly cross subsidise or unfairly subsidise the establishment, operation or maintenance of any Telecommunication Network or Telecommunication Services.

30.2 To enable the JCRA to evaluate where any unfair cross-subsidisation or unfair subsidisation is taking place, the Licensee shall record at full cost in its accounting records any material transfer of assets, funds, costs, rights or liabilities between a part and any other part of its business, and between it and any Subsidiary or Joint Venture, and shall comply with any directions issued by the JCRA for this purpose.

31. UNDUE PREFERENCE AND UNFAIR DISCRIMINATION

31.1 The Licensee shall not show undue preference to, or exercise unfair discrimination against, any User or Other Licensed Operator regarding the provision of any Telecommunications Services or Access. The Licensee will be deemed to be in breach of this Condition if it favours any business carried on by the Licensee or an Subsidiary or Joint Venture or Other Licensed Operator so as to place Other Licensed Operators competing with that business at an unfair disadvantage in relation to any licensed activity.

32. LINKED SALES

32.1 The Licensee shall not make it a condition of providing any Telecommunications Services, or providing Access that a Subscriber, User or Other Licensed Operator should acquire from the Licensee, or any person specified by the Licensee, any Telecommunications Service or Telecommunications apparatus including CPE, other than the one that is specifically required by the person concerned, unless the Licensee has:

- (a) notified the JCRA of its intention to do so; and
- (b) has satisfied them that either there are technical reasons why such a bundling of Telecommunication Services and/or Telecommunication Apparatus should occur, or that there is a sufficient economic benefit to Users to justify the bundling.

32.2 The provisions of Condition 30.1 shall not prevent the Licensee from offering discounts in accordance with any discount scheme which complies with Condition 30.

33. PRICE REGULATED SERVICES

33.1 Where the Licensee intends to introduce:

- (a) new prices for any Telecommunication Services, or prices for new Telecommunication Services to be introduced by the Licensee;
- (b) any discounts to published prices for Telecommunication Services within a relevant market in which the Licensee has been found to be dominant, or for any Subscribers to whom additional services or goods are provided by the Licensee or any of its Subsidiaries or Joint Venture; or
- (c) special offers to all or any of its customers for particular categories of Telecommunication Services where those Telecommunication Services have been found to be within a relevant market in which the Licensee has been found to be dominant,

it shall publish the same at least twenty one (21) days prior to their coming into effect or otherwise as required by Telecommunications (Jersey) Law , and provide full details of the same to the JCRA.

33.2 The JCRA may determine the maximum level of charges the Licensee may apply for Telecommunication Services within a relevant market in which the Licensee has been found to be dominant. A determination may:

- (a) provide for the overall limit to apply to such Telecommunications Services or categories of Telecommunication Services or any combination of Telecommunication Services;
- (b) restrict increases in any such charges or to require reductions in them whether by reference to any formula or otherwise; or
- (c) provide for different limits to apply in relation to different periods of time falling within the periods to which any determination applies.

33.3 All published prices, discount schemes and special offers of, or introduced by, the Licensee for Telecommunication Services shall be transparent and non-discriminatory; all prices and discount schemes shall be cost-justified and all special offers shall be objectively justifiable.

33.4 If the JCRA, after consulting the Licensee and such other persons as it may determine, is satisfied that any published price, discount scheme or special offer is in breach the Telecommunications (Jersey) Law or this Licence, the JCRA may, by issuing a direction, require the Licensee to bring the relevant prices, discount schemes or special offers into conformity with the Laws and/or the requirements of this Licence.

34. FAIR COMPETITION

34.1 The Licensee shall:

- (a) not abuse any position of Significant Market Power and/or established position in any telecommunications market;
- (b) not engage in any practice or enter into any arrangement that has the object or the likely effect of preventing, restricting or distorting competition in the establishment, operation and maintenance of Licensed Telecommunication Systems or the provision of Telecommunication Services; and
- (c) comply with any direction issued by the JCRA for the purpose of preventing any market abuse or any practice or arrangement that has the object or effect of preventing, restricting or distorting competition in the establishment, operation and maintenance of Licensed Telecommunication Systems or the provision of Telecommunication Services.

35. NATIONAL ROAMING

- 35.1 If the Licensee or the Licensee's Subsidiary or Associated Company or joint venture and any Other Licensed Operator fail to reach agreement within sixty (60) days in respect of a request by the Other Licensed Operator for National Roaming, the JCRA may instruct the Licensee to allow, or to procure that the Licensee's Subsidiary or Associated Company or joint venture allows the Other Licensed Operator National Roaming on reasonable terms unless the JCRA determines that it would be unreasonable to require the Licensee or the Licensee's Subsidiary or Associated Company or joint venture concerned, alone or with any other person willing or required to do so, to grant the necessary National Roaming.
- 35.2 Any such agreement concluded under Condition 35.1 shall take effect at the latest date on which the Other Licensed Operator has rolled out its Mobile Telecommunications Service to cover an area in which 60% of the Jersey population lives and shall be capable of having effect at least for the period defined in Condition 35.6.
- 35.3 Where the Licensee is under a duty to negotiate an agreement under Condition 35.1, it shall, in addition, be obliged when requested by the Other Licensed Operator to cooperate with it to ensure that the Other Licensed Operator is in a position to take reasonable advantage of the agreement.
- 35.4 In the absence of agreement between the parties on an agreement under Condition 35.1, the terms of National Roaming, including time limits for completion of any agreement, shall be determined by the JCRA.
- 35.5 The Licensee shall comply with any directions or determinations of the JCRA in respect to National Roaming.
- 35.6 Unless otherwise determined by the JCRA, the Licensee's obligations in this Condition shall cease to have effect three years after the date on which the

Other Licensed Operator's spectrum licence for the operation of mobile telephone systems in Jersey takes effect.

SCHEDULE A: MNP REQUIREMENTS

Basic Capabilities of the MNP System

1. The JCRA has determined that MNP is a requirement for Jersey. It recognizes that MNP is likely to be required before general NP; however, the JCRA requires that any implemented system for MNP would be forward-looking and provide facilities and capabilities:
 - to interface with an NP system for fixed network telecommunications systems;
 - to interface with an NP system for broadband based telecommunications systems;
 - to manage general numbering functions such as block allocation and number translation services;
 - to operate across all mobile technologies;
 - to interface with any future Domain Name System ('DNS') based system such as eNum; and
 - to interface with a stolen mobile database function.

The MNP system also should have the ability to comply with the requirements of the Regulation of Investigatory Powers (Jersey) Law 2005.

Operation of MNP and payment of costs

2. The Donor Network may charge the Recipient Network for the reasonable costs incurred in porting a number to the Recipient Network. The Licensee shall not apply a charge greater than the lowest charge among all Licensed Operators unless it is cost justified to the JCRA's satisfaction.
3. The Licensee shall bear its own costs for accessing the MNP system in relation to the on-going routing of calls to ported numbers.

Outline of the Porting Process

5. Porting originations shall be initiated and controlled by the Recipient Network. The Subscriber requesting porting shall at no time be required to contact the Donor Network to process any part of physical number porting.
6. The Recipient Network may make appropriate validation checks on the Subscriber's right to port. The Donor Network may not require verification information additional to that required by the Recipient Network.
7. Porting requests shall be processed within a timescale not exceeding 48 hours unless a request is refused by a Donor Network on any of the grounds listed in Paragraph 9.

8. A Donor Network shall not initiate contact with a Subscriber that has requested porting prior to the end of that Subscriber's porting process. The Licensee shall implement documented procedures which at a minimum are to ensure that, when it is operating as a Donor Network, there is no communication of information between personnel involved in number porting and personnel in sales and marketing.
9. A Donor Network may only refuse a porting request in circumstances when:
 - the number to be ported is not a valid and live number on the Donor Network;
 - the account number in the request does not relate to the MSISDN on post-paid accounts;
 - the number is already subject to a porting process;
 - the existing account is subject to suspension of service for non-payment;
 - there is failure by the Recipient Network to make available to the Donor Network a copy of the subscriber's authorization for the porting request; or
 - the JCRA has approved, upon notification by the Licensee, any other reason than the above for refusal.
10. The Licensee shall not charge the ported Subscriber for requesting or applying the portability function.
11. The Licensee shall notify Subscribers of any tariff differences between 'on-net' and 'off-net' calls as a result of number porting.

DEFINITIONS

As used in Schedule A, the following expressions have the following meanings:

“Donor Network” means the Operator that provides service to a Subscriber before porting.

“MSISDN” means a mobile station international subscriber directory number.

“Recipient Network” means the Operator that acquires a Subscriber who takes up a new service with that Operator and transfers their existing number from their previous Operator.

“Subscriber” means a user of telecommunication services provided either through a contract or a pre-paid account.

SCHEDULE B – MINIMUM REQUIREMENTS FOR 4G SERVICES

Requirement 1 The Licensee shall by no later than 31 December 2016 provide, and thereafter maintain, an electronic communications network that is capable of providing, with 90% confidence, a mobile telecommunications service with a sustained downlink speed of not less than 2 Mbps and a sustained uplink speed of not less than 768 kbps when that network is lightly loaded, to users¹:

- i) in an area within which at least 95% of the population of each of Guernsey, Jersey, Alderney, Herm and Sark live, and
- ii) at indoor locations that meet the conditions specified in paragraph (iv) below and which are within any residential and business premises within the area specified in paragraph i above.

For the purposes of paragraph ii of this minimum requirement:

- iii) the service must be provided using radio equipment which is not situated inside the relevant residential premises;
- iv) the condition referred to is that the radio signal propagation loss from the outside of the building to the location inside the building does not exceed:
 - a. 13.2dB for radio signals in the frequency ranges 791MHz – 821MHz and 832MHz – 862MHz;
 - b. 13.7dB for radio signals in the frequency ranges 880MHz – 915MHz and 925MHz – 960MHz;
 - c. 16.5dB for radio signals in the frequency ranges 1710MHz – 1785MHz and 1805MHz – 1880MHz;
 - d. 17.9dB for radio signals in the frequency range 2500MHz – 2690MHz;
 - e. Any other propagation loss notified to the Licensee by Ofcom in respect of radio signals in any other frequency band.

For the purpose of this minimum requirement, a network is considered 'lightly loaded' if it has a single user demanding service within the serving cell, and the surrounding cells of the network are loaded to a light level (by which is meant the common channels only are transmitting at 22% of the maximum cell power).

Requirement 2 The Licensee will collaborate with the JCRA and implement a programme of customer information to inform users of Digital Terrestrial Television (DTT) services about possible interference problems due to the building of 4G networks and enable affected users to mitigate interference problems by providing connectors and filters to these users and, if deemed necessary, install these measures at their premises at the earliest reasonable time.

Requirement 3 The Licensee must minimise the environmental impact of their activities connected with the 800 MHz, 1,800 MHz and 2.6 GHz spectrum bands and, in particular, agree to share facilities with other operators (unless there are demonstrable technical reasons why sharing is not practicable), and to implement the Recommendation of the Council of the European Union regarding exposure to electro-magnetic fields (1999/519/EC).

¹ The Compliance Verification Methodology that CICRA will use is consistent with that described in: Ofcom. 4G Coverage Obligation Notice of Compliance Verification Methodology: LTE. 12 November 2012

- Requirement 4** The Licensee must commit to negotiating in good faith with any potential mobile virtual network operator for access to its mobile networks and agree that any dispute arising from such negotiations may be referred to the JCRA for final determination.
- Requirement 5** The Licensee agrees to give their LTE service customers, when they roam outside the Channel Islands, the benefit of retail prices at least as favourable as the retail price constraints which apply to operators in the European Union by virtue of Regulation (EU) 531/2012, and the benefit of customer information equivalent to, or better than, that required of operators in the EU by virtue of the same Regulation. Reference to Regulation (EU) 531/2012 is reference to it as it stands now and, at the JCRA's direction, as it is amended or replaced by subsequent legislation.

SCHEDULE C - PERFORMANCE COMMITMENTS (confidential)

[CONFIDENTIAL]
