Information note

The Telecoms Market Report (**Report**) provides an overview of the telecommunications sector in the Channel Islands.¹ The Report is a joint project between the Jersey Competition Regulatory Authority (**JCRA**) and Guernsey Competition and Regulatory Authority (**GCRA**), which have a service level agreement with 4insight Ltd to produce the pan-Channel Islands Report.²

The publishing of market information demonstrates the value the telecoms sector has generated in the Channel Islands. Further, as an evidence-based regulator, the JCRA relies on thorough and up-to-date market insights to prioritise our work effectively. The Report also supports market transparency and helps stakeholders, including consumers, to make informed choices.

An overview of the timetable for the production of the 2025 Report is provided below. These dates broadly follow the same schedule as in previous years. To simplify the process for stakeholders, the data request will also remain consistent with prior years.
