

INFORMATION NOTE

Spectrum Defragmentation: Licence revocation recommendations to Ofcom

The Jersey Competition Regulatory Authority (the Authority) has been progressing the defragmentation of local spectrum in the 3.4-3.8 GHz band to allow the creation of large contiguous spectrum blocks for new services including 5G.

Following consultation and consideration of responses received, the JCRA Board agreed on 6 July 2023 to recommend the revocation of licences presently held by Clear Mobitel (Jersey) Limited and Newtel Limited in the 3.4-3.8 GHz band. Following issuing the consultation outcome and decision, we have now written to both affected licensees and Ofcom, with the letters of recommendation published on the Authority's website.
