Review of Q3

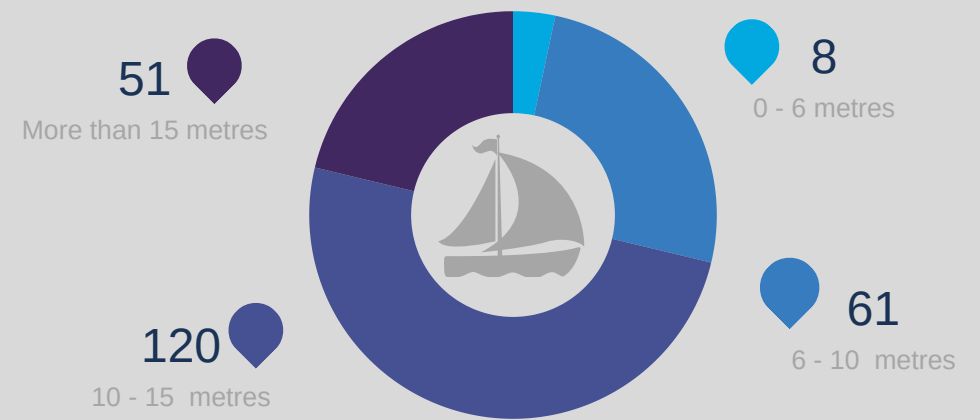

Airlines serving Jersey continue to move to newer, larger and more fuel efficient aircraft and the arrival times of these aircraft are often determined by the limited slots at the capacity constrained airports they are departing from.

Although Ports of Jersey works closely with our Airline partners and the slot coordination company, there will be times where several aircraft are scheduled to arrive or depart at the same time.

The operational teams plan their resources around the varying demands, however at peak times queues will form for services such as security and it will take longer to move through these areas.
