

How the JCRA delivers value for Islanders

The Jersey Competition Regulatory Authority helps Jersey markets work better for Islanders by promoting competition, reviewing mergers, regulating key sectors, improving service quality, strengthening resilience, and protecting consumers from harm.

The JCRA is both:

- Jersey's competition authority.
- The sector regulator for air and sea port operations, postal services and telecommunications.

In 2026 Frontier Economics carried out an independent assessment of the work we do, and the value it delivers.

Headline findings

Benefits our work supports

Lower
prices

Higher
quality

Fair
competition

Better
information

Resilience

Innovation

Examples of markets reviewed

Alcohol pricing
and promotion

Care
homes

Construction

Electricity

Groceries

School
uniforms

*Based on 5% of JCRA activities so total benefits are likely higher.
